

INVITATION

85TH SCIENCECENTER-NETWORK-MEETING

RESEARCHERS AS ACTORS IN SCIENCE ENGAGEMENT: COOPERATION IN SCIENCE COMMUNICATION CONTEXTS

At the 85th ScienceCenter-Network Meeting, we will explore how researchers can practise science engagement in different contexts – and which prerequisites, roles, and framework conditions are needed to make this possible.

In structured discussion rounds, researchers and representatives from science communication, mediation, and public outreach will come together to reflect on perspectives, expectations, and possible models of collaboration. In addition, students from the University of Vienna who participated in the course “Science Communication Laboratories” (Science and Technology Studies) will present their projects on science communication.

THE SCIENCECENTER-NETWORK

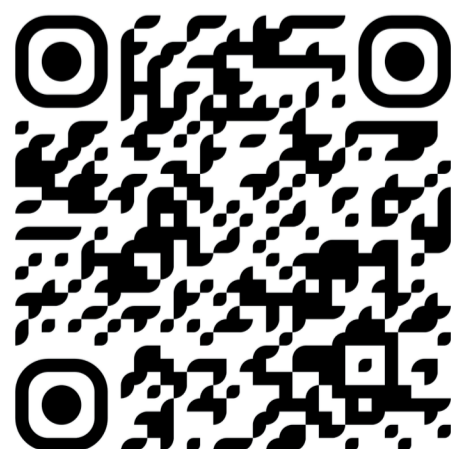

The ScienceCenter-Network is a collaborative network of over 200 partners with many different backgrounds and foci: education, science and research, exhibition design, arts, media and economy. Our goal is to make Science accessible and tangible for all. The Association ScienceCenter-Network acts as driving force and coordinating hub which organises and pilots activities and conducts research on it.

For further information click here: www.science-center-net.at

This networking event is held in cooperation with the University of Vienna - thank you very much!

**REGISTRATION NEEDED
UNTIL JUNE 12TH**

(you are forwarded to Reglist)
